**iQIYI Prices Offering of US\$650 Million Convertible Senior Notes**

BEIJING, China, November 29, 2018—iQIYI, Inc. (NASDAQ: IQ) (“iQIYI” or the “Company”), an innovative market-leading online entertainment service in China, today announced the pricing of its previously announced offering (the “Notes Offering”) of US\$650 million in aggregate principal amount of convertible senior notes due 2023 (the “Notes”). The Company has granted the initial purchasers in the Notes Offering a 13-day option to purchase up to an additional US\$100 million in principal amount of the Notes. The Company plans to use part of the net proceeds from the Notes Offering to pay the cost of the capped call transactions described below, and use the remainder of the proceeds to expand and enhance its content offerings, to strengthen its technologies, and for working capital and other general corporate purposes.

The Notes will bear interest at a rate of 3.75% per year, payable semi-annually in arrears on June 1 and December 1 of each year, beginning on June 1, 2019. The Notes will mature on December 1, 2023, unless previously repurchased, redeemed or converted in accordance with their terms prior to such date. The Company may not redeem the Notes prior to maturity, unless certain tax-related events occur. Holders of the Notes may require the Company to repurchase all or part of their Notes in cash on December 1, 2021 or in the event of certain fundamental changes. Prior to June 1, 2023, the Notes will be convertible at the option of the holders only upon satisfaction of certain conditions and during certain periods. Thereafter, the Notes will be convertible at the option of the holders at any time until the close of business on the second scheduled trading day immediately preceding the maturity date. The initial conversion rate of the Notes is 37.1830 of the Company’s American Depositary Shares (“ADSs”), each currently representing seven Class A ordinary shares of the Company, per US\$1,000 principal amount of Notes (which is equivalent to an initial conversion price of approximately US\$26.89 per ADS and represents a conversion premium of approximately 40% above the NASDAQ closing price of the Company’s ADSs on November 29, 2018, which was US\$19.21 per ADS). The conversion rate for the Notes is subject to adjustment upon the occurrence of certain events. Upon conversion, the Company will pay or deliver to such converting holders, as the case may be, cash, ADSs, or a combination of cash and ADSs, at its election.

The Notes have been offered in the United States to qualified institutional buyers pursuant to Rule 144A and to non-U.S. persons outside the United States in reliance on Regulation S under the Securities Act of 1933, as amended (the “Securities Act”). The Notes, the ADSs deliverable upon conversion of the Notes and the Class A ordinary shares represented thereby have not been and will not be registered under the Securities Act or the securities laws of any other place, and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements.

In connection with the Notes Offering, the Company has entered into capped call transactions with one or more of the initial purchasers and/or their respective affiliates and/or other financial institutions (the “Option Counterparties”). The capped call transactions are expected to reduce potential dilution to existing holders of the ordinary shares and ADSs of the Company upon conversion of the Notes and/or offset any potential cash payments that the Company is required to make in excess of the principal amount of any converted notes, as the case may be, with such reduction and/or offset subject to a cap. If the initial purchasers exercise their option to purchase additional Notes, the Company may enter into additional capped call transactions. As part of establishing their initial hedges of the capped call transactions, the Option Counterparties or their respective affiliates expect to trade the ADSs and/or enter into various derivative transactions with respect to the Company’s ADSs concurrently with, or shortly after, the pricing of the Notes. This activity could increase (or reduce the size of any decrease in) the market price of the ADSs or the Notes at that time. If any such capped call transactions fails to become effective, whether or not the Notes Offering is completed, the Option Counterparties may unwind their hedge positions with respect to the ADSs, which could adversely affect the value of the ADSs and, if the Notes have been issued, the value of the Notes.

In addition, the Option Counterparties or their respective affiliates may modify their hedge positions by entering into or unwinding various derivative transactions with respect to the ADSs or other securities of the Company in secondary market transactions following the pricing of the Notes and prior to the maturity of the Notes. The Option Counterparties may engage in such activity during any observation period relating to a conversion of the Notes. This activity could also cause or avoid an increase or a decrease in the market price of the ADSs or the Notes, which could affect noteholders' ability to convert the Notes and, to the extent the activity occurs during any observation period related to a conversion of the Notes, could affect the amount and value of the consideration that noteholders will receive upon conversion of such Notes.

The cap price of the capped call transactions is initially US\$38.42 per ADS, representing a premium of approximately 100% to the NASDAQ closing price of the Company's ADSs on November 29, 2018, which was US\$19.21 per ADS and is subject to adjustment under the terms of the capped call transactions.

The Company expects to close the Offering on or about December 4, 2018, subject to the satisfaction of customary closing conditions.

This press release shall not constitute an offer to sell or a solicitation of an offer to purchase any securities, nor shall there be a sale of the securities in any state or jurisdiction in which such an offer, solicitation or sale would be unlawful.

This press release contains information about the pending offerings of the Notes, and there can be no assurance that any of the offerings will be completed.
