iQIYI Announces Second Quarter 2018 Financial Results

BEIJING, July 31, 2018 – iQIYI, Inc. (NASDAQ: IQ) (“iQIYI” or the “Company”), an innovative market-leading online entertainment service in China, today announced its unaudited financial results for the second quarter ended June 30, 2018.

Second Quarter 2018 Highlights

- Total revenues were RMB6.2 billion (US\$932.5 million¹), representing a 51%² increase from the same period in 2017.
- Operating loss was RMB1.3 billion (US\$200.7 million) and operating loss margin was 22%, compared to operating loss of RMB990.7 million and operating loss margin of 24% in the same period in 2017.
- Net loss attributable to iQIYI was RMB2.1 billion (US\$316.9 million), compared to RMB953.2 million in the same period in 2017. Diluted net loss attributable to iQIYI per ADS was RMB3.01 (US\$0.45).
- The number of total subscribing members were 67.1 million as of June 30, 2018, representing a 75% increase from 38.3 million as of June 30, 2017. The number of paying subscribing members were 66.2 million as of June 30, 2018.

“We are pleased to deliver another strong quarter of financial and operational results,” commented Dr. Yu Gong, Founder, Director and Chief Executive Officer of iQIYI. “Supported by our vast library of premium content, and the premiere of a series of highly popular self-produced content, our membership and advertising businesses both generated robust growth during the quarter, with the total number of subscribing members reaching a new record high. Looking ahead, we will continue to invest in advanced technology, expand the breadth and depth of our content offerings and nurture our entertainment ecosystem, as we pursue our innovative and diversified monetization model that fully leverages our premium content and IP value.”

“Our second quarter top-line growth came in above our expectations with total revenues increasing 51% year-over-year,” commented Xiaodong Wang, Chief Financial Officer of iQIYI. “We are encouraged to see monetization efficiency continuing to improve across our various business lines, driven primarily by the strength of our self-produced content and a number of operational efficiency enhancing initiatives we rolled out during the quarter. We believe we are well on track to execute on our corporate strategy and generate long-term sustainable value to our shareholders.”

Footnotes:

- [1] This announcement contains translations of certain RMB amounts into U.S. dollars at specified rates solely for the convenience of the reader. Unless otherwise noted, all translations from RMB to U.S. dollars are made at a rate of RMB6.6171 to US\$1.00, the effective noon buying rate as of June 29, 2018, in The City of New York for cable transfers of RMB as certified for customs purposes by the Federal Reserve Bank of New York.
- [2] Starting from January 1, 2018, iQIYI adopted the new revenue accounting standard (ASC 606), which reclassifies value added tax from cost of revenues to net against revenues. To increase comparability of operating results and help investors better understand our business performance and operating trends, 2017 net revenues have been used to calculate all percentage changes in revenues and operating loss margins. 2017 net revenues are defined as gross revenues under legacy GAAP after the deduction of value added-taxes, which is presented on the same basis as 2018 and going forward.

Second Quarter 2018 Financial Results

Total revenues reached RMB6.2 billion (US\$932.5 million), representing a 51% increase from the same period in 2017.

Membership services revenue was RMB2.5 billion (US\$374.0 million), representing a 66% increase from the same period in 2017. The increase was primarily attributable to the growth in subscribing members, driven by our premium content as well as various operational initiatives during the quarter.

Online advertising services revenue was RMB2.6 billion (US\$395.6 million), representing a 45% increase from the same period in 2017. The increase was primarily due to improved efficiency in the monetization of brand advertising business, driven by our strong and expanding library of self-produced content, especially our self-produced variety shows during the quarter, as well as the strong momentum of our in-feed advertising business.

Content distribution revenue was RMB539.4 million (US\$81.5 million), representing an 18% increase from the same period in 2017. The increase was primarily due to several major film titles that we sub-licensed to external partners in the quarter.

Other revenues were RMB538.9 million (US\$81.4 million), representing a 62% increase from the same period in 2017. The increase was primarily driven by strong performance across various vertical business lines.

Cost of revenues was RMB6.1 billion (US\$922.9 million), representing a 47% increase from RMB4.2 billion, after deducting the value added tax in the same period in 2017. The increase was primarily driven by content costs due to higher amortization of self-produced content and licensed copyrights as we continue to invest in building our comprehensive and diversified content library. Content costs as a component of cost of revenues were RMB4.7 billion (US\$709.0 million), representing a 47% increase from the same period in 2017.

Selling, general and administrative expenses were RMB949.9 million (US\$143.6 million), representing a 51% increase from the same period in 2017. The increase was primarily due to increased channel marketing expenses as well as content related promotion and branding expenses.

Research and development expenses were RMB441.5 million (US\$66.7 million), representing a 50% increase from the same period in 2017, primarily due to increased headcount in research and development.

Operating loss was RMB1.3 billion (US\$200.7 million), compared to operating loss of RMB990.7 million in the same period in 2017. Operating loss margin was 22%, compared to operating loss margin of 24% in the same period in 2017.

Total other expenses was RMB768.3 million (US\$116.1 million), compared to total other income of RMB38.2 million during the same period of 2017. In the second quarter of 2018, we recognized RMB778.0 million (US\$117.6 million) of foreign exchange loss arising from the depreciation of the Renminbi against the U.S. dollar.

Loss before income taxes was RMB2.1 billion (US\$316.8 million), compared to RMB952.5 million in the same period in 2017.

Income tax expenses were RMB4.9 million (US\$0.7 million), compared to income tax expense of RMB0.7 million in the same period in 2017.

Net loss attributable to iQIYI was RMB2.1 billion (US\$316.9 million), compared to RMB953.2 million in the same period in 2017. Diluted net loss attributable to iQIYI per ADS was RMB3.01 (US\$0.45) for the second quarter of 2018.

As of June 30, 2018, the Company had cash, cash equivalents and short-term investments of RMB13.0 billion (US\$2.0 billion).

Financial Guidance

For the third quarter of 2018, iQIYI expects total net revenues to be between RMB6.70 billion (US\$985.3 million³) and RMB6.98 billion (US\$1.03 billion), representing a 43% to 49% increase from the same period in 2017. This forecast reflects iQIYI's current and preliminary view, which is subject to substantial uncertainty.

Footnote:

[3] The translations from RMB to U.S. dollars for the expected revenues in the third quarter of 2018 are made at a rate of RMB6.80 to US\$1.0, the rounded noon buying rate as of July 20, 2018, in The City of New York for cable transfers of RMB as certified for customs purposes by the Federal Reserve Bank of New York.
