Exhibit 99.1—Press Release

iQIYI Announces Third quarter 2019 Financial Results

BEIJING, November 6, 2019 – iQIYI, Inc. (NASDAQ: IQ) (“iQIYI” or the “Company”), an innovative market-leading online entertainment service in China, today announced its unaudited financial results for the third quarter ended September 30, 2019.

Third quarter 2019 Highlights

- Total revenues were RMB7.4 billion (US\$1.0 billion¹), representing a 7% increase from the same period in 2018.
- Operating loss was RMB2.8 billion (US\$396.2 million) and operating loss margin was 38%, compared to operating loss of RMB2.6 billion and operating loss margin of 37% in the same period in 2018.
- Net loss attributable to iQIYI was RMB3.7 billion (US\$516.0 million), compared to net loss attributable to iQIYI of RMB3.1 billion in the same period in 2018. Diluted net loss attributable to iQIYI per ADS was RMB5.04 (US\$0.70).
- The number of total subscribing members was 105.8 million as of September 30, 2019, 99.2% of whom were paying subscribing members. This compares to 80.7 million of total subscribing members as of September 30, 2018, up 31% year over year.

“We continued to make solid progress during the quarter as we march toward our vision of building a technology-based entertainment giant,” commented Dr. Yu Gong, Founder, Director and Chief Executive Officer of iQIYI. “Growing 30% year-over-year, our subscription business contributed more than half of our total quarterly revenues for the first time. This once again demonstrated the strength of our platform and validated our dedication to producing high quality original content. Leveraging our cutting-edge AI technology, we are continually fine-tuning our content offerings, optimizing our monetization efficiencies, and exploring potential new runways for future growth. With the rapid development of 5G, we believe there will be astonishing new opportunities ahead, and we will continue to push forward the convergence between technology and art to create deeper value and greater prospects for the future.”

“Despite a challenging environment, we delivered another quarter of topline growth with total revenues increasing 7% year-over-year to RMB7.4 billion,” commented Mr. Xiaodong Wang, Chief Financial Officer of iQIYI. “Subscription business continued to serve as the major driver of our revenue growth, and we further executed on our multi-dimensional IP development strategy to create new monetization opportunities and diversify our revenue streams. While we experienced some margin fluctuation due to seasonally higher content cost during the quarter, we believe we are on track to improve long-term efficiency through disciplined spending and investment. Going forward, we will continue to drive shareholder value by further enhancing monetization and transitioning toward a more balanced content structure.”

Footnote:

- [1] Unless otherwise noted, all translations from RMB to U.S. dollars are made at a rate of RMB7.1477 to US\$1.00, the exchange rate in effect as of September 30, 2019 as set forth in the H.10 statistical release of the Board of Governors of the Federal Reserve System. Translations are provided solely for the convenience of the reader.

Third quarter 2019 Financial Results

Total revenues reached RMB7.4 billion (US\$1.0 billion), representing a 7% increase from the same period in 2018.

Membership services revenue was RMB3.7 billion (US\$520.0 million), representing a 30% increase from the same period in 2018. The increase resulted from the solid growth in the number of subscribing members, driven by our premium content and various operational initiatives during the quarter.

Online advertising services revenue was RMB2.1 billion (US\$289.2 million), down 14% year over year, mainly due to the challenging macroeconomic environment in China, the delay of certain content launches and the intensified competition in in-feed advertising.

Content distribution revenue was RMB680.4 million (US\$95.2 million), representing a 18% decrease from the same period in 2018, mainly due to the delay of certain content launches during the quarter, as well as the high base in the same period of previous year.

Other revenues were RMB932.3 million (US\$130.4 million), representing an 12% increase from the same period in 2018. The increase was primarily driven by our game business following several new game launches this year by Skymoons.

Cost of revenues was RMB8.2 billion (US\$1.1 billion), representing a 7% increase from the same period in 2018. The increase was primarily driven by higher content costs as well as other cost items. Content costs as a component of cost of revenues were RMB6.2 billion (US\$870.5 million), representing a 3% increase from the same period in 2018.

Selling, general and administrative expenses were RMB1.3 billion (US\$188.8 million), representing a 4% increase from the same period in 2018. This was primarily due to increased sales and marketing expenses of game business associated with the consolidation of Skymoons, as well as higher marketing spending for certain iQIYI apps.

Research and development expenses were RMB703.2 million (US\$98.4 million), representing a 26% increase from the same period in 2018, primarily due to the increase of personnel-related compensation expenses.

Operating loss was RMB2.8 billion (US\$396.2 million), compared to operating loss of RMB2.6 billion in the same period in 2018. Operating loss margin was 38%, compared to operating loss margin of 37% in the same period in 2018.

Total other expense was RMB826.8 million (US\$115.7 million), compared to total other expense of RMB539.4 million during the same period of 2018. The year-over-year increase was mainly due to increased interest expenses arising from our financing activities and higher foreign exchange loss associated with the fluctuation of exchange rate between Renminbi and U.S. dollar.

Loss before income taxes was RMB3.7 billion (US\$511.8 million), compared to loss before income taxes of RMB3.1 billion in the same period in 2018.

Income tax expense was RMB16.0 million (US\$2.2 million), compared to income tax benefit of RMB6.1 million in the same period in 2018.

Net loss attributable to iQIYI was RMB3.7 billion (US\$516.0 million), compared to net loss attributable to iQIYI of RMB3.1 billion in the same period in 2018. Diluted net loss attributable to iQIYI per ADS was RMB5.04 (US\$0.70) for the third quarter of 2019.

As of September 30, 2019, the Company had cash, cash equivalents, restricted cash and short-term investments of RMB13.9 billion (US\$1.9 billion).

Financial Guidance

For the fourth quarter of 2019, iQIYI expects total net revenues to be between RMB6.86 billion (US\$0.96 billion) and RMB7.28 billion (US\$1.02 billion), representing a -2% to 4% increase from the same period in 2018. This forecast reflects iQIYI's current and preliminary view, which is subject to substantial uncertainty.

Conference Call Information

iQIYI's management will hold an earnings conference call at 7:00 PM on November 6, 2019, U.S. Eastern Time (8:00 AM on November 7, 2019, Beijing Time). Dial-in details for the earnings conference call are as follows:

International	+65 67135090
China	4006 208038
US	+1 845 675 0437
UK	+44 2036 214779
Hong Kong	+852 3018 6771
Passcode:	7892488

A telephone replay of the call will be available two hours after the conclusion of the conference call through November 14, 2019.

Dial-in numbers for the replay are as follows:

International Dial-in +61 2 8199 0299
Passcode: 7892488

A live and archived webcast of this conference call will be available at <http://ir.iqiyi.com>.
